SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Not classified as a hazardous mixture according the CLP regulation (EU 1272/2008).

2.2 Label elements

No labeling. In accordance with current regulations, this product has not been classified as hazardous.

2.3 Other hazards

Carbon black in particulate form (dust) is listed as a possible carcinogen to humans (group 2B) by the International Agency for Research on Cancer (IARC). In the product, carbon black is bound in the base polymer and exposure to dust containing carbon black can be ruled out in normal use. The product does not contain any known or suspected endocrine disruptors. PBT/vPvB assessment: see point 12.5.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS						
3.2 Mixtures						
CAS/EC number and the registration number	Name of the ingredient	Concentration	Classification			
CAS 1333-86-4 EC 215-609-9	Carbon black	10 – 30 %	Not classified, national occupational exposure limit value			
Carbon black	is in nanoform. In the product	carbon black is bo	ound in the base polymer			

Carbon black is in nanoform. In the product, carbon black is bound in the base polymer.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General

If the situation is unclear or symptoms persist, seek medical attention.

Inhalation

If symptoms occur, move the exposed person to fresh air and keep under observation. Get medical attention if symptoms persist or are severe.

Skin contact

Rinse with water. In case of skin contact with molten plastic, cool the skin rapidly with water. Do not attempt to remove plastic glued to burnt skin without medical assistance.

Eve contact

Immediately flush eyes with plenty of water. Carefully remove any particles remaining under the eyelids. Seek medical attention if eye irritation persists.

Indestion

Do not induce vomiting. Rinse the mouth with water and give 1-2 glasses of water to drink. Get medical advice/attention if the exposed person feels unwell.

4.2 Most important symptoms and effects, both acute and delayed Skin contact with molten plastic causes thermal burns.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: FIREFIGHTING MEASURES

5.1 **Extinguishing media**

- Water spray, foam, carbon dioxide (CO₂)
- 5.2 Special hazards arising from the substance or mixture

Oxides of carbon and hydrocarbon fragments.

5.3 Advice for firefighters

Wear appropriate protective equipment and self-contained breathing apparatus.

Appropriate engineering controls

Provide adequate ventilation, use local exhaust ventilation if necessary. **Eye/face protection** Wear suitable protective goggles if there is a risk of eye contact. **Skin protection**

Trade name:

Date: 14.3.2023

Former date: 4.12.2023 INFORMATION FORM FOR CHEMICALS DATA

Normal work clothing. Hand protection Use appropriate protective gloves when handling the product. Respiratory protection If it is not possible to reduce exposure levels to below exposure limit values by ventilation, use an appropriate respirator. Thermal hazards Molten plastic may cause thermal burns. Wear appropriate heat resistant protective clothing and gloves if needed.

Environmental exposure controls

Do not let the granules contaminate sewers, waters or soil.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES			
9.1 Information on basic physical and chemical pro	Information on basic physical and chemical properties		
Appearance	solid, granule		
Odour	characteristic odour		
Odour threshold	Not applicable.		
рН	Not applicable		
Melting point/freezing point	Melting range 220-230 °C		
Initial boiling point and boiling range	Not applicable		
Flash point	> 350 °C		
Evaporation rate	Not applicable		
Flammability (solid, gas)	Not flammable.		
Upper/lower flammability or explosive limits	Not applicable		
Vapour pressure	Not applicable		
Vapour density	Not applicable		
Particle characteristics	Carbon black: Nanoform Comments: In the product, carbon black is bound		
	in plastic and risk of exposure to carbon black as dust can be ruled out in normal use.		
Relative density	1.1 g/cm3		
Solubility(ies)	Insoluble in water		
Partition coefficient: n-octanol/water	Not applicable		
Auto-ignition temperature	Not determined		
Decomposition temperature	Not determined		
Viscosity	Not applicable		
Explosive properties	Not classified as explosive.		
Oxidising properties	Not classified as oxidising.		

9.2 Other information None.

Former date: 4.12.2023 INFORMATION FORM FOR CHEMICALS DATA

10.1	Reactivity
	Not reactive under normal use and storage conditions.
10.2	Chemical stability
	Stable under normal storage and handling conditions.
10.3	Possibility of hazardous reactions
	No known dangerous reactions under normal use and storage conditions.
10.4	Conditions to avoid
	Heat.
	Do not allow product to remain in barrel at elevated temperatures for extended period of time.
0.5	Incompatible materials
	No known incompatible materials.
0.6	Hazardous decomposition products
	Oxides of hydrocarbon fragments.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute toxicity

The product is not classified as acute toxic. There is no toxicity data available for the product as such.

Carbon black: LD50 (oral, rat): > 8000 mg/kg.

In the compound, the carbon black is bound in the base polymer.

Skin corrosion/irritation

The product is not classified as corrosive/irritant.

Serious eye damage/irritation

The product is not classified as corrosive/irritant.

Respiratory or skin sensitisation

The product is not classified as a sensitiser.

Germ cell mutagenicity

The product is not classified as mutagenic.

Carcinogenicity

The product is not classified as carcinogenic.

Carbon black is listed as a possible carcinogen to humans (group 2B) by the International Agency for Research on Cancer (IARC), but is not listed as a carcinogen by U.S. National Toxicity Program (NTP) or U.S. Occupational Safety and Health Administration (OSHA).

Reproductive toxicity

The product is not classified as a reproductive toxicant.

STOT-single exposure

The product is not classified as toxic to specific target organs through single exposure.

STOT-repeated exposure

The product is not classified as toxic to specific target organs through prolonged or repeated exposure.

Aspiration hazard

The product is not classified as hazardous with aspiration.

11.2 Other information

Endocrine disruption

The product does not contain any known or suspected endocrine disruptors

Date: 14.3.2023
